

Below is a small list of Trumpet and Brass Ensemble related recordings that I really enjoy (in no particular order). I found out about these particular artists/recordings by listening to classical radio like Oregon-based www.KWAX.com , reading the Penguin Guide, or from the excellent classical commercial site at www.HBDirect.com. The list is far from complete, but its contents should be a safe-bet for the classically-minded trumpeter. Especially good performances are **bolded**.
